Curriculum, Learning and Teaching

Secondary Curriculum

The Secondary Curriculum follows the NSW Education Standards Authority (NESA) syllabus for each course offered as required for Registration and Accreditation under the Education Act 1990 (NSW) and implements the curriculum requirements of the Catholic Schools Office

The Curriculum is structured around the outcomes and content for each learning area and general capabilities for learning across the curriculum including literacy, numeracy, information and communication technology, critical and creative thinking, ethical behaviour, personal and social competence and intercultural understanding.

Curriculum

St Pius X has designed a program of study that allows students to meet mandatory NSW Education Standards Authority (NESA) requirements while also providing them with the flexibility to follow their own program of study to meet their future employment requirements.

Students study a range of courses in Year 7 and 8 (Stage Four) in addition to the core subjects, to enable them to make informed elective choices for Years 9 to 12. Students at St Pius X are required to study across eight areas of study over Years 7 to 10.

Five of these areas of study are studied in each of Years 7 to 10. These are:

- i English
- i Mathematics
- i Science
- i Human Society and Its Environment (HSIE)
- i Personal Development/Health/Physical Education (PDHPE)

At some time during Years 7 to 10 students are also required to study courses in Creative Arts (Music and Visual Art), Languages other than English, and Technological and Applied Studies.

As a Catholic school, St Pius X requires all students to complete courses in Religious Studies each year.

St Pius X is a member of the Catholic Education Diocese of Parramatta (CEDP) and is a member of the Catholic Education Society of Australia (CESA).

We offer an excellent Accelerated Mathematics program starting in Year 7 and timetabled into the normal day. We offer extensive opportunities in STEM education within our Science, TAS and mathematics courses and our specialist iSTEM Elective in Years 9 and 10. We are also currently planning the training of teachers in Virtual Reality and Augmented Reality educational applications with a view to implementation in 2024.

We cater for gifted students mainly within the existing curriculum, so that extension work and projects are done within their existing classes on a day-to-day basis. We also provide gifted students in Years 7 and 8 the opportunity to take part in the Diocesan Virtual Reality program. There is more about our Gifted Education program on our website. Our Gifted Education Mentor Teacher is responsible for overseeing this program.

We have a very experienced learning support team which provides both direct assistance to students needing extra help with their learning in our spacious Learning Hub and support to the teachers of these students to ensure assistance is ongoing in all lessons.
