Community Satisfaction

Consultation with parents, students and teachers is valued and sought. Their feedback contributes to the planning and the achievement of improved outcomes for students. This year, the School has used a variety of processes to gain information about the level of satisfaction with the School from parents, students and teachers. The school undertakes extensive surveying of all stakeholder groups annually. This data is shared with the school community and contributes to the priorities for future planning.

Parent satisfaction

In 2023, formal and informal opportunities allowed the school to test reaction to decisions, policy and school procedures and gauge feedback in a number of areas.

Parents have a positive perception of the school's Catholic Identity, the care that is displayed, the quality of teaching and learning taking place, and the organisation of the school. St Aloysius is supported by many families who make a significant contribution to building and sustaining our community through their efforts. We have many willing helpers who are generous with their time, funds and energy to ensure our community flourishes and our reputation is upheld.

Parents acknowledged the partnership they share with the school and numerous communications were positive that 2023 initiatives are welcomed.

Student satisfaction

The students of St Aloysius speak positively about their school and their teachers. The children are very involved in all aspects of school life and readily assist staff to improve our school. Our school attendance records demonstrate high student attendance and our students actively demonstrate behaviours that align to our school pillars and Positive Behaviours for Learning expectations.

They communicate, formally and informally, teachers are generally responsive to their needs and encourage independence. They feel classroom instruction is well-organised, with a clear purpose, and with feedback that helps them learn. Students identified that they are strongly encouraged to also speak to staff about any concerns they may have and feel that they have connections to someone they can turn to for advice.

Teacher satisfaction

In 2023 the staff at St Aloysius participated in the Maitland Newcastle Engagement Survey. The results indicated staff scored highly in the following areas.

1. Engagement
2. Wellbeing
3. Progress of the school

Staff satisfaction is measured by their attitude while working and the level of interaction in meetings and willingness to take on additional tasks beyond normal teaching duties to add value and stimulation to the education received by the students. The dedication of staff in contributing their time, talents and expertise is appreciated by the school and frequently recognised in the comments of parents.
