	Solid State Drive (SSD) highly recommended	SSD is preferred over reliable, durable and consistent due to their better performance. Avoid e-Storage. These are often found in cheap devices and tend to have high failure rates.
--	---	---

RAM (Working memory)	recommended: 8 or greater	Working memory is used by the operating system to store data temporarily. When the program is running, it operates through the working memory. Anything less than 4 GB is not the working memory cannot cope with multiple programs being used at once and it slows down its functioning or shuts down programs in the middle of use.
--------------------------------	------------------------------	---

Processor	recommended: 2 Hz or greater	There are programs that are being used, the greater the speed it has on the speed at which the machine can work. A 1.5 Hz processor is too slow and frustrating to use. So programs for video production will not operate on a laptop with a slow processor. On the other hand, large processors such as Intel i7 or Core i7 (14 watts) are preferred to Core i5 (5 watts). When it comes to speed vs long life of battery life.
------------------	---------------------------------	--

This is the brains of the computer. There are a variety of processors. The main brands in the Windows environment are Intel Core, AMD Ryzen, and Qualcomm's Snapdragon. Below highlights the different levels based on cost and performance.

Intel & Core Performance

- Intel -- Core i3, Core 3 (Ultra), All N series, Intel Celeron and Pentium
- AMD -- Athlon, Ryzen 3 (US series)

Processor Brand

Intel Core, AMD Ryzen, Qualcomm

Intel & Core Performance

- Intel -- Core i5, Core 5, Core 7 (US series)
- AMD -- Ryzen, Ryzen 5 (US series)

Intel and High Performance

- Intel -- Core i5 (Extreme), Core i7 (Ultra, and

Stylu	Option I	If the device is not available
Protective case	Essential	Various types
Gain app	Highly discouraged	This is not the device's option. Software is downloaded from the store, so it is not recommended.
Microsoft 5	Purchase not required	The software is available for free up to 5 devices. The software is not required for purchase.
Third Party Visual Software	Consider carefully	Windows. Other manufacturers may not be able to block the device from installing software. The software is not recommended for use on the device. The software is not recommended for use on the device.
